

The logo for Gtag.me, featuring a red location pin icon with a white 'G' inside, followed by the text "tag.me" in a bold, purple, sans-serif font.

The **SMART** way to you use **GOOGLE MAPS**

By the time you finish reading this...

Around the world millions of people will;

- Waste fuel
- Impact green house gases
- Waste time
- Get annoyed and effect their health

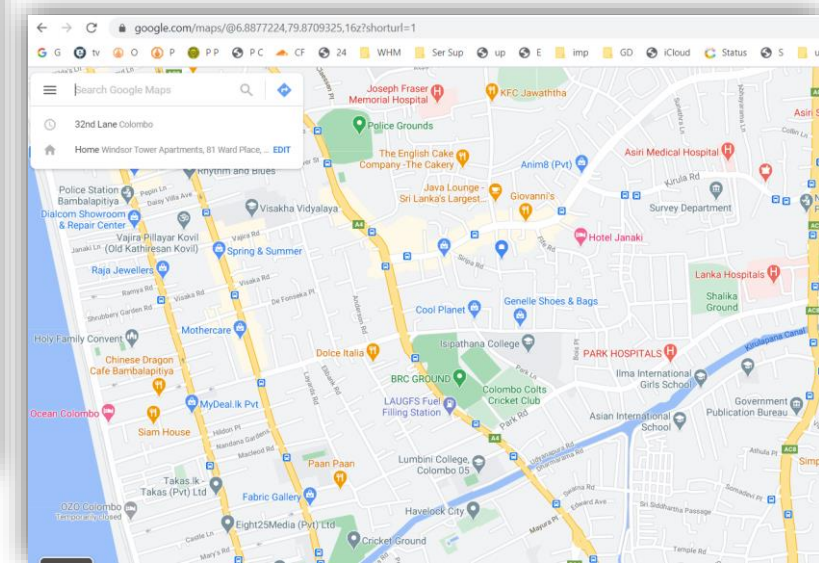

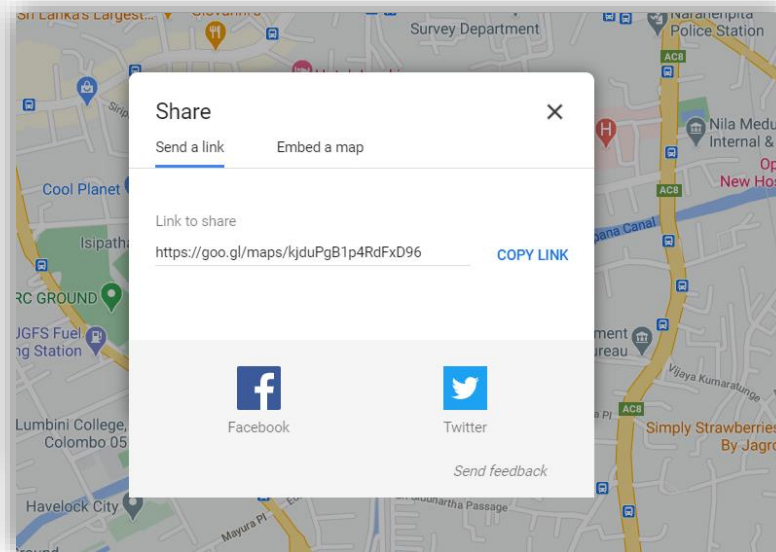

Simply because they cannot locate a place!

We live in a tech world yet, giving directions is complex

Android Computer iPhone & iPad

Share a map or location

1. On your computer, open [Google Maps](#).
2. Go to the directions, map, or Street View image you want to share.
3. On the top left, click Menu ☰.
4. Select **Share** or **embed map**. If you don't see this option, click **Link to this map**.
 - **Optional:** To create a shorter web page link, check the box next to "Share a shorter link".
5. Copy and paste the link wherever you want to share the map.

Surely, there must be an easy way
